Color accuracy is only guaranteed when tinted in quality Benjamin Moore® paints and stains. On-screen and printer color representations may vary from actual stain colors. These colors have been rendered on white pine to promote color accuracy. Results may vary depending on finish and wood type; use color samples on an example of your wood for true color accuracy. La exactitud del color solo se garantiza cuando se tintan pinturas y tintes de calidad Benjamin Moore®. Las representaciones del color impresas o en la pantalla pueden variar de los colores reales del tinte. Estos colores se han logrado sobre pino blanco para propiciar la exactitud. Los resultados pueden variar dependiendo del acabado y del tipo de madera; use las muestras de colores sobre una muestra de su madera para comprobar la verdadera exactitud del color.
